

FLEXIBLE WALLBOX

With 11 kW, NRGkick 16A offers exactly the right charging power for everyday use - efficient, reliable and can be used anywhere. Particularly light and compact - perfect for on-the-go.

And best of all: Smart Services such as OCPP or PV-led charging can be conveniently upgraded over-the-air at any time.

More information can be found here.

THE COMPARISON

Both variants of the flexible wallbox are available in three cable lengths: 5m, 7.5m and 10m.

🇦🇹 Made in Austria

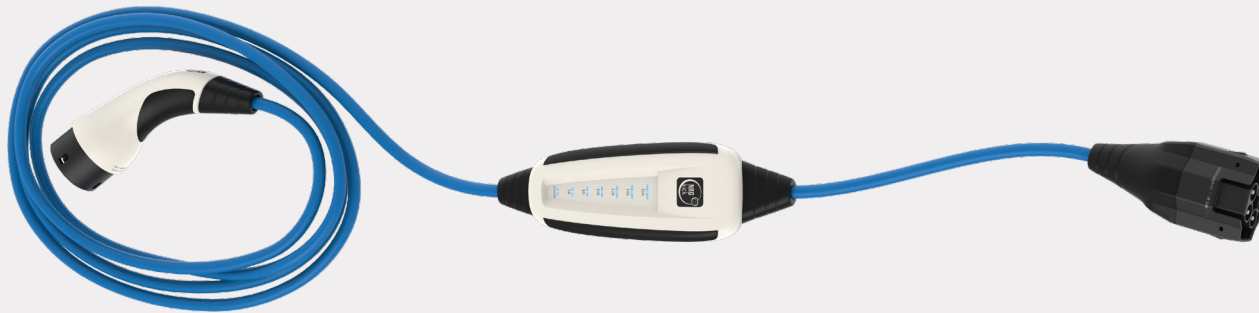

NRGKICK 16A | 16A light
Smart charging with 11 kW

11 kW CHARGING POWER

perfect for daily charging

- » NRGkick 16A is ideal for conveniently charging your electric car overnight.
- » The charging power is perfectly matched to all standard household connections.
- » The lightweight and compact flexible wallbox fits easily into your car's trunk or frunk.

NRGkick APP

optimise your charging processes

- » The app provides detailed information about your charging processes and allows you to conveniently control your NRGkick remotely.
- » Intelligent functions such as time-controlled charging or energy limits provide ultimate charging comfort.
- » If you have purchased a 16A light version without the app, you can still upgrade it at any time via the web shop.

UPGRADEABLE AT ANY TIME

simply over the air

- » Thanks to the WiFi connection, NRGkick is regularly updated.
- » Smart Services such as PV-led charging can be easily upgraded via the web shop and are available on your NRGkick in no time.

SAFE CHARGING

always in first place

- » NRGkick is drive-over safe, waterproof and dustproof (IP67, IP69k) and has impact resistance according to IK10.
- » Manufactured from high quality materials in Austria.
- » Numerous safety mechanisms such as temperature monitoring, hot unplug detection and arc protection protect you and your electric car.
