Purchasing PV-led Charging

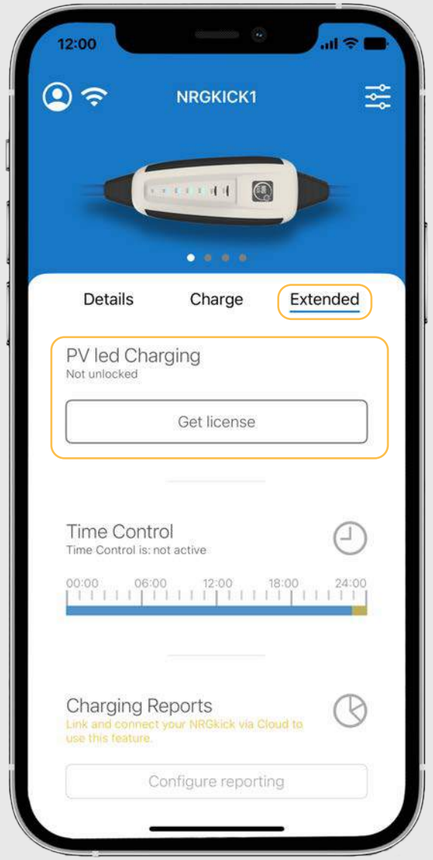

activating the smart service license

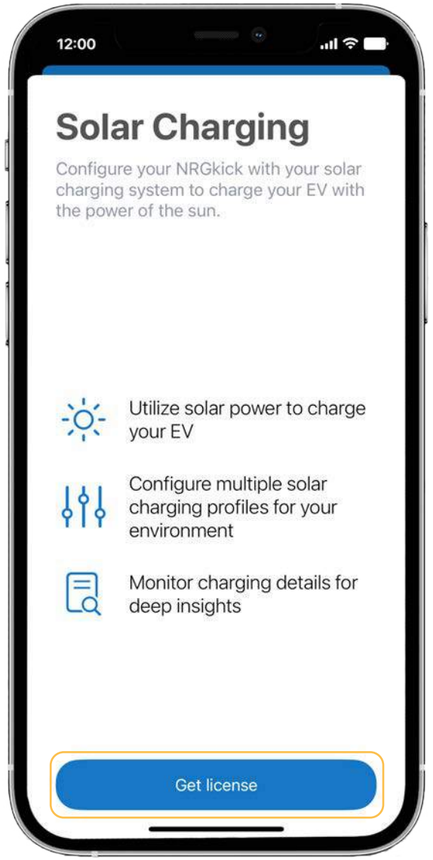

Version 1.2

1. Purchasing PV-led Charging

1.1. In the section „Extended“ you can buy the license „PV-led Charging“.

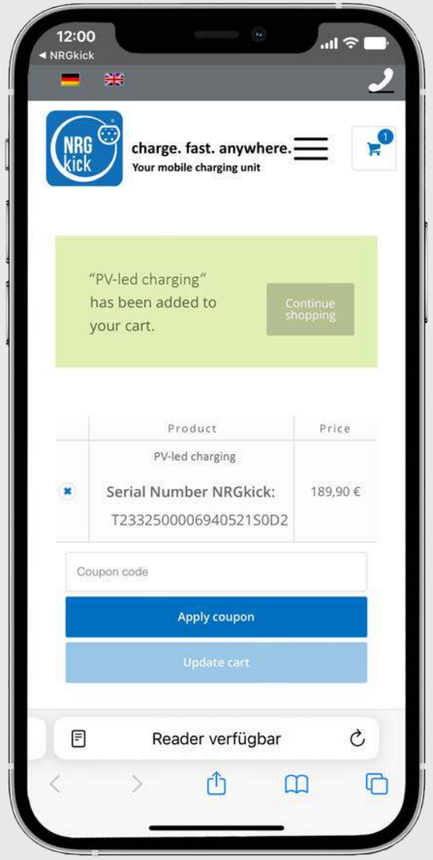

NRGkick requires a connection to the internet and must not be plugged into the EV, to be able to install the latest software.

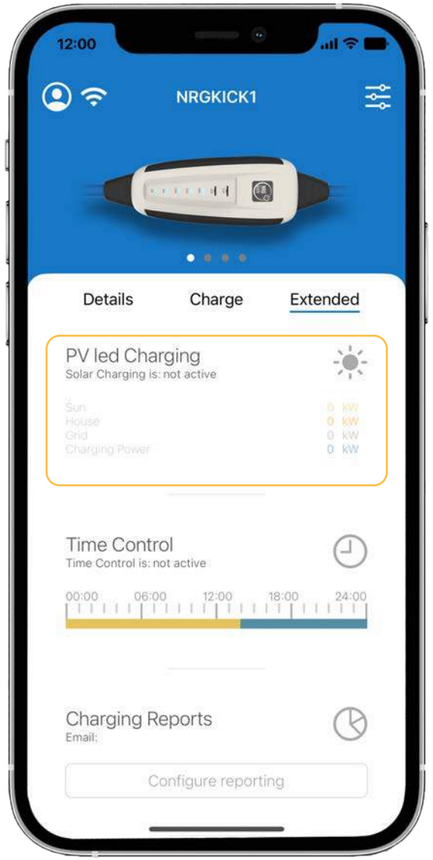

1.2. Tap on „Get license“. After tht you will be redirected to our website.

1.3. The product PV-led Charging will be added directly to your shopping cart and all you have to do is complete the purchase.

1.4. Now you will see the newly enabled „PV-led Charging“ function in the app. By tapping on „PV-led Charging“, you can start the setup.

2. Contact/Support
